

API Academic Performance Index

The API is a single number, ranging from a low of 200 to a high of 1000, which reflects a school's, an LEA's, or a subgroup's performance level, based on the results of statewide testing. Its purpose is to measure the academic performance and growth of schools. The API was established by the PSAA, a landmark state law passed in 1999 that created a new academic accountability system for K-12 public education in California.

Statewide API Scores for all schools is 800+

769

Terra Nova High School
2009/2010 API Score

801!

Terra Nova High School
